

## **Alternatives to Detention Working Group Agenda**

**Meeting on Wednesday, July 14, 2021**

CSG provided background information and presented a project plan

Current alternatives were discussed (AC, electronic monitoring, home confinement)

Discussion about consistency in the DST (not accurate as PD doesn't have the actual charge or history)

ND only state that has LE does the tool

The key project plan deliverables were reviewed

- Develop decision tree matrix and associated override criteria
- Develop kinship care and absconding policies including the identification of potential service options
- Develop behavioral health placement policy including the identification of potential service options
- Identify potential validation plan for the detention screening tool (will be done collectively rather than through a subgroup)

Phone call w/Kelsey Bless on 7/20/21:

- Shelter
- Kinship Navigator
