

ND Juvenile Justice Planning Work Group

Meeting on Wednesday, August 25, 2021

1. Welcome and Introductions

2. Partnership – General Discussion

Potential partnership with First Link (or another system in lieu of First Link):

NOTE: We invited First Link to our meeting but it was a quick turn-around invite and they could not make it. We have been told that they are interested in having the discussion and we will continue to try to get a meeting set up with them.

3. Classification System

- a. Josh Weber introduced a draft classification system, identifying the criteria that the work group suggests would make for robust search criteria in the database of 211 (or another system if 211 does not work out).
- b. The work group offered suggestions and options that would improve the classifications/criteria for searching a database.
- c. The work group identified that during the upcoming meeting with First Link, the criteria/classification system will be shared with First Link. The goal of the meeting would be to determine the feasibility of developing a process together for creating a juvenile justice section in the First Link directory using this kind of classification information.
- d. Carrie and the work group members began the discussion as to who will be responsible for gathering information on available services on behalf of the different agencies/parts of the state.
