

MEMBER ASSOCIATIONS

- North Dakota County Commissioners Association
- North Dakota County Auditors Association
- North Dakota County Clerks of District Court Association
- North Dakota County Recorders Association
- North Dakota County Treasurers Association

The offices of district court judge, highway engineer, sheriff, state's attorney, superintendent of schools and tax director have specific education requirements set out separately in N.D. Century Code.

Each county elected or formerly elected (appointed) position has a member association of peers with the same duties statewide. These associations feel it is important that new officials have training sessions to better equip them to carry out the duties of their office. Resolutions passed by these member associations resulted in legislation requiring newly elected and appointed officials to receive training within one year of their election or appointment.

With the passage of this law, each of the member associations developed a curriculum they felt would be worthwhile to new members. Because all courses may not be available every year, each association exercises flexibility in the required programs. ILG offers many of the required courses. Each Association may choose to keep a record of members' education efforts.

INSTITUTE OF LOCAL GOVERNMENT

The Institute of Local Government (ILG) was created by the ND Association of Counties (NDACo) as a non-profit subsidiary to promote continuing education of county officials. In addition to helping county officials meet statutory training requirements, ILG provides a host of professional development opportunities throughout the year. ILG training is available to other local government officials and private sector participants. Most training is conducted as webinars. Courses and registration are listed online at: www.ndaco.org/ilg.

TRAINING REQUIREMENTS FOR NEW COUNTY OFFICIALS

"One of the best rewards of a county office is the support you get from your member association, and the professional development they offer you through ILG."

CONGRATULATIONS!

You have been given the opportunity to serve your county as an elected or appointed official. Your peers in all counties have formed "member associations" to help you serve your county better.

As required by state law, your member association has set forth a curriculum of the requirements they feel will benefit you in your position.

This publication serves as a guide to those legislatively mandated training requirements. Under the auspices of your member association the ND Association of Counties provides many of the training events through its professional development program, the Institute for Local Government (ILG).
